# GRIP SO STICKY IT'S ALMOST ILLEGAL

**WARNING:** Cutters makes football gloves equipped with **C-TACK**, a technology known to provide **EXTREME** grip on receptions and every kind of play on the field — especially on Sundays. C-TACK grip is a **TRADE SECRET** that has often been imitated by competitors. However, their imitations never come close to matching C-TACK's stick, durability and performance. **DO NOT** use C-TACK if you are resistant to highlight-reel catches, ridiculous confidence, or letting your opponents know what time it is.

Use Cutters, But Proceed With Caution.

We are the pioneers of performance grip. Other companies have attempted to meet our standards, but they don't come close to matching our grip, durability or overall performance. Our grip is a trade secret.

Cold, rain or shine, our gloves perform without compromise in all weather conditions.

Self-restoring grip material. Simply wipe down with a damp cloth when dirty.

All of our gloves are machine washable. It is recommended that you wash your gloves often to help clean and maintain the grip and life of your glove.
